## AUSTRALIAN MOTOR RACING COMMISSION

### BUSINESS ARISING FROM THE MINUTES

**MIN 2816: IMPROVED PRODUCTION RACING ASSOCIATION OF AUSTRALIA – FUTURE DIRECTION**

The Commission is still awaiting further information from IPRA on the future direction of the category.

**MIN 2818: SUPERKARTS**

The format of the proposed Nationals is still under negotiation between CAMS and the National Superkart Association (NSA).

**Min 2819: CLASSIC CARS AND DRIVERS**

The Commission has been considering the idea of creating a category for cars which are not currently being raced in contemporary motor sport and are not defined under 5<sup>th</sup> Category regulations, and the issue will be discussed in depth at the upcoming Commission Face to Face Meeting in June.

**Min 2821: HYUNDAI EXCEL BATTERIES**

It was raised with Commissioners there is some misinterpretation the Preamble in the CAMS Manual - Group 3E Circuit Excel regulations whereby a perceived allowance to move batteries into the vehicle cabin is based on a reference to the referring to the Group 3E Series Production Car Regulations.

The Commissioners agreed in principle that the battery type and location to be free until 31/12/19 after which compliance to 2020 regulations, which will specify the battery location, must be observed. A Paper outlining this action is to be prepared and issued to CAMS Technical for comment and then the Preamble altered to remove the potential for misinterpretation, to be effective as from 1/1/20.

### MEETINGS IN 2019

Teleconferences held on Wednesdays, commencing at 1830 hours Melbourne time.
