The South Australian Rally Panel welcomes you to the South Australian Clubman Series (SACS).

First run in 1998, the SACS historically played an important role as a secondary series to the SA Rally Championship providing less experienced competitors an outlet to hone their skills competing in stand-alone closed road rallies.

Comprising a combination of ralliesprints, autocrosses and rallies, the SACS is designed to be an affordable series.

Rallies forming part of the SACS may be non-pace noted or pace noted, dependent on event regulations. Competitors found using notes during non-pace noted events will be liable to a penalty of disqualification. In general, the rallies forming part of the SACS will be “piggybacked” onto the SARC rallies. SACS entrants will compete on a subset of the SARC stages selected for their lower speeds. The apparel requirements for SACS will be the same as the SARC.

The SACS calendared events for 2022 are:

Rd 1	11 th – 12 th June	SA Autocross Championship (SEAC Park, Mt Gambier)
Rd 2	18 th September	MSS Safety Rally Barossa
Rd 3	21 st – 23 rd October	UME Adelaide Hills Rally

ELIGIBILITY OF SERIES

The Series will consist of a minimum of 2 events within a calendar year and all rounds will count towards the Series points.

ELIGIBILITY OF EVENTS

SA Clubman Series events will run under the relevant sections in the Motorsport Australia Manual.

Events will be conducted on predominantly unsealed surfaces and may comprise a combination of Special Stage Rallies, Autocrosses and Rallysprints (which may be Level 1 or Level 2).

The Rallies are to be fully route charted of between 50kms and 100kms recommended total competitive distance. No awards will be presented if the total competitive length of a Rally forming part of the Series has been reduced to less than 30kms by reasons of force majeure.

A Closed Competitive Section is defined to mean roads closed with the relevant Ministerial approval or run on private property or forestry roads.

EVENT CONDITIONS

The maximum average speed for Special Stages in a Series Rally is 90kph. If in the opinion of the Series Checker, speeds in excess of this limit may be exceeded on a proposed stage, the stage is deemed unsuitable and may not be used. Any stage used and on which a maximum average speed of 99kph is exceeded may not be used in future in the same configuration and/or without measures introduced to reduce that speed.

Any crew member found driving on a competitive stage between the time of issue of the Event Supplementary Regulations and the crew's start time for the first stage of that leg, other than official reconnaissance times in the case of Rallies or Rallysprints, will be referred to the Stewards with a recommendation for the imposition of a penalty of disqualification.

In non-pace-noted Rallies any crew member found in possession of or suspected on reasonable grounds to be using pace notes or any other navigational aids (except paper maps), including electronic aids, beyond the road book supplied for the event will be referred to the Stewards with a recommendation for the imposition of a penalty of exclusion. The Supplementary Regulations for each such event are encouraged to include powers for Officials to search competition vehicles for pace notes and to seize any evidence found.

Vehicles may carry signs of sponsors who may be in commercial competition with the sponsors of the event or series.

In all competitions, with the exception of those for 5th Category (Historic) vehicles, the Motorsport Australia logo shall be carried on the car. For cars other than the 1st Category the logo shall be positioned adjacent to, and in a plane in line with the top of the competition number.
