- 6.2. LIMITED ELIGIBILITY ROUND (as per the NCR'sR15-ii) is a round where eligibility is restricted by the requirement that in order to participate drivers, competitors or automobiles be required to comply with specified particular qualifications.

One Tree Hill, Ararat: Some automobiles are not eligible to compete under the track licence conditions at One Tree Hill, Ararat. See event supplementary regulations for more detail. A class in which any of these types of automobiles are competing in the VHCC is not eligible for points in the Ararat round of the VHCC, see 4.6.

In addition to One Tree Hill, Ararat, the VHCAP at its discretion may determine a round to be classed as a Limited Eligibility Round.

Fifth place 11 points  
Sixth place 10 points  
Seventh place 9 points  
Eighth place 8 points  
Ninth place 7 points

- 6.4. CHAMPIONSHIP POINTS CALCULATION

6.4.1. Drop Worst Round

Each competitor lowest points round will be dropped when calculating the championship results, see "minus 1" in the points calculation.

6.4.2. Calculations based on number of rounds.

Where the championship consists of 6 rounds or more the scoring will be:

1. The best score of N minus 1 round (where N = the number of rounds) will determine placing's in CLASSES NOT affected by a Limited Eligibility Round.
2. The best score of N minus the sum of [1+ number of Limited Eligibility Rounds] will determine placing's in CLASSES AFFECTED by a Limited Eligibility Round.
3. The best score of N minus the sum of [1+ number of Limited Eligibility Rounds] will determine placing's in the OUTRIGHT CHAMPIONSHIP.

Where the championship consists of 5 rounds or fewer the scoring will be:

1. Points scored in all rounds of the championship will be used to determine placing's in CLASSES NOT affected a Limited Eligibility Round.
2. The best score of N minus the Limited Eligibility Round will determine placing's in CLASSES AFFECTED by a Limited Eligibility Round.
3. The best score of N minus the Limited Eligibility Round will determine placing's in the OUTRIGHT CHAMPIONSHIP.

If two competitors finish on equal points for either first, second or third places in any class then the winner will be determined via a count back.

6.4.3. Count Back

On a count back the driver who scores the greater number of higher place finishes during the season is the successful driver. For example if driver A scores 3 wins and driver B scores 2 then driver A is the successful driver. Where both have the same number of first place finishes, then the greater number of second place finishes would be included in the count back, and if still tied, third place finishes and so on. If after all non-dropped round places are tallied the drivers remain tied the dropped round will then be included in the count to determine the successful driver.
