A capitalised and italicised word in this document is defined in the FIA International Sporting Code (Code) or the National Competition Rules (NCR), including their Appendices.

Any HEADING is for reference only and has no regulatory effect.

1. **INFECTIOUS DISEASES**

Motorsport Australia requires that all those who are likely to come into contact with blood or body fluids use *Standard Precautions*. This includes circuit medical staff, flag marshals, and all trackside personnel who are likely to be involved in attending an incident. At a minimum, relevant individuals must be issued with disposable gloves.

Further details regarding Standard Precautions can be found on the Australian Commission on Safety and Quality in Health Care website - <https://www.safetyandquality.gov.au/our-work/infection-prevention-and-control/standard-and-transmission-based-precaution-posters>

Any personnel who have had an exposure risk should be assessed by medical services at the event.

It is strongly recommended that drivers and personnel are vaccinated against preventable diseases according to the current protocols found on the Australian Government Immunisation website – <https://www.health.gov.au/topics/immunisation?language=und>
