Safety 1st Checklist

This checklist is for **SPEED EVENTS** only.

This checklist is designed to assist motorsport event organisers with planning and delivering safe and compliant motorsport events in accordance with Motorsport Australia Regulations, permit application and health and safety requirements.

The checklist is structured to address the following key stages of motorsport event delivery:

- **Pre-event** – this section identifies the areas that need to be addressed as a part of the planning process prior to running a motorsport event, it also aligns with the permit application minimum requirements.
- **Event delivery** – this section identifies the areas that need to be addressed during the event/as a part of the event delivery, specifically focusing on safety and compliance.
- **Post-event** – this section identifies the areas that need to be addressed after the event including the submission of completed compliance documentation and incident reports.

Important note: If any of the requirements outlined in this checklist have not been addressed at the relevant stage, a Targeted Risk Assessment (TRA) may be required to assess and mitigate specific risks associated with the requirements having not been addressed.
